- 1. Inspect before each use.
- 2. Make sure all rivets and joints, nuts and bolts are tight and rungs are secure.
- 3. Ladder extension locks and feet function and if necessary lubricate.
- 4. Rope properly affixed and in good condition.
- 5. Never climb a damaged, bent or broken ladder.
- 6. Ensure the ladder is clean, free from wet paint, mud, snow, oil and any other slippery materials.
- 7. Never make temporary repairs of damaged or missing parts.
- 8. All working parts must be in good working condition.
