

Emergency Preparedness Policy

Revision Date: June 1, 2023

Minor First Aid:

Your Foreman or other First Aiders will administer First Aid Treatment for minor injuries. First Aid Kits are located in all Job shacks and company vehicles. Any and all materials used from the first aid kit must be documented in the first aid kit's logbook & the logbook must be presented to the safety coordinator monthly. In cases that need further treatment or medical diagnosis is needed, the employee will be accompanied to the medical facility by an employee of the J & G Group of Companies. The employee will stay with the injured employee until his/her family is present or until medical personnel indicate no further emergency exists.

Major Accident:

In the event of a more serious injury, you must ensure the safety of yourself and others. It is important to follow the Emergency Procedures below and remember that a seriously injured person must not be moved unless a life-threatening hazard exists, as you may cause more harm than good.
