

# Hazard Assessment Policy

**Revision Date:** June 1, 2023

We at the J & G Group of Companies are entirely committed to our safety program. As a result, we have implemented Hazard Assessment forms, which will enable its users to identify, evaluate, and control daily hazards. Prior to the performance of any work at a site, a Hazard Assessment must be completed and reviewed with all employees. Hazard Assessments should then be performed on a regular basis. Through the involvement of everyone in these inspections, a team approach is produced. This team approach will yield the best results possible from these inspections.

Adherence to Workplace Safety and Health Regulations and our policies and procedures are not seen as an option. The health and safety of every person in the workplace is of the utmost importance and is the responsibility of ALL involved.
