

Hearing Protection Policy

Revision Date: June 1, 2023

Here at the J & G Group of Companies, it is our policy that everyone wears the proper Hearing Protection while operating ALL power tools and equipment. We will be providing all employees with the appropriate hearing protection, where noise levels on jobsites exceed 85dBa as per regulation. Being exposed to high noise levels for long periods of time is harmful to a person's long-term hearing, a fact that all employees must take seriously.

Adherence to Workplace Safety and Health Regulations (M.R 217/2006) and our policies and procedures are not seen as an option. The health and safety of every person in the workplace is of the utmost importance and is the responsibility of ALL involved.
